Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Alvarado et al.

Alvarado et al. discloses a method for synthesizing and purifying an oligonucleotide immobilized on a solid support complex comprising a polymer support comprising a long chain alkyl amine (LCMA), deoxyribonucleoside 3'phosphosramidite containing fmoc as a protecting group on the nucleotide base. Unreacted material is removed creating a purified oligonucleotide/polymer support complex. The purified

complex is then treated with DBU which releases only the Fmoc and the oligonucleotides is immobilized on said support. (page 39, page 40 last paragraph – page 41).
